About This Game

VR Dream Match Baseball is experience to challenge Big League pitchers.

Challenge a pro's fastballs and breaking balls as a batter and catcher! With true hitting/catching sensation. You can experience a real pitcher's balls in a big league baseball stadium with realistic sensation as a catcher or batter. You can shuffle pitch types from the menu or button operation. You can also enlarge the size of the bat or ball so that you can hit the ball more easily – a feature you could enjoy only in the digital world.

☑ Takes place in a stadium setting creating a true sensation.

☑ Catch a 102 miles/h straight ball ! Do you have the courage to catch it?

☑ Aim for home run ! You can experience pro pitchers' various pitch types, such as straight ball, curveball, splitter, etc.

☑ Data display: Catching results, batting results, results per ball and reaching distance

☑ When you hit a home run, grand fireworks and great cheers will bless you.

I've been an avid fan of the Nancy Drew games since HerInteractive first started producing the games. The first game I ever played was the second computer game to come out called "Message in a Haunted Mansion." And of course, since then, I've been totally addicted to all games by HerInteractive.

This game happens to be one of my favourites. I never managed to complete this game when I was younger, but as an adult, I really enjoyed it--especially since I took two years of studying Japanese language and culture since then! Given the background I've had with Japanese, I found most of the puzzles to be fairly easy. But there were a few challenging ones that I really enjoyed. The one that immediately comes to mind is fixing the portrait hanging wires at the beginning of the game and Nancy learning how to write her own name in katakana!

I think anyone who is a fan of Nancy Drew already will enjoy this game. And if you're new to Nancy Drew, I don't think this is an especially bad game to start with, all considering it's got some pretty good jump scares and doesn't require much background context about Nancy Drew, the other characters, and the previous games.

Overall, a great game! Have fun!. good rpg game!!11. "You are in a maze of twisty little portals, all alike". Not. Fun.. An OK game. Controls seem a bit clunky. I'd be willing to bet that a controller would be perfect for this title.

If it can get it low-cost, do it. Lots of casual fun. Not a perfect title to be sure. Lots of annoying design issues like not being able to re-choose upgrades and an odd save system. (on levels 11,21,31) But for the \$2 or whatever it was worth it.. Don't get me wrong, I love mahjong, but this game really was lacking for me. There is a lot of misspellings in the dialogue, the story is pretty meh, and some of the layouts are so ridiculously hard that it is frustrating. There is much better mahjong games out there.

Might be good one day, but that day is not today.

I get that this is Early Access, but this is not even playable for me since there is no option to reorient the table I have to stand at the very edge of my playspace, which means the cable is stretched.

Honestly, at the very least get a menu with this sort of simple stuff before launching EA.

I'll do another review once I can play it without pulling out all my cables.

Edit 1: Although this edit is a bit late I finally tried this game again, and being able to reorient the table at least made it playable :)

And I enjoyed a few rounds, with the AI slider in the middle the the competition was at a good level for me.

Although almost two months later I would have hoped that the game would be a little bit more polished, aside from some UI tweaks (which aren't much better than last time I played) I didn't see any difference.

The music is very annoying after about a minute, since its like a 30s loop. And there is no variation in anything, aside from the table moving about a little bit.

I want more arenas (think world championship type arenas with audience), I want an actual opponent, not a floating racket. Maybe a hand model for the non-racket-holding hand.

Sorry dev, I think the base physics of the game is good, but right now due to not much happening I'm calling vaporware :(Its an Amazing, Interactive and addictive game!. Beautiful and creative story-telling. It improves significantly from the previous game.. This game is a neat hidden object game with a nice story and scenic locations.

It is not as long as its predecessor (Dark Overlord) but still worth the money for a few hours of fun.. Very nice. Not too killer. I like that. Just swap/walk the cubes across the floor in level 28.. -The only available resolution cuts off on the right and left of my screen

-I have two gamepads and for some reason Ameline splits the controls between the two of them

ie; I have to reach over and use Y on player 2's game pad

. if you like variety then you should like this game. It's on the short side for visual novels, but enjoyable nonetheless. The characters felt predictable at first, but the game throws a few unexpected twists your way to try and keep you away from the real culprit. The only real downside is that a lot of events are shared between story lines (4 in total) which can make certain events rather predictable when doing again.

If you're looking to spend an afternoon this game can bring you quite the charming and enjoyable way to do it.. If you pick the "good" option because you genuinely like being the good guy, this game is going to force you to make some hard choices.

If you form relationships with characters easily, this game is going to do its best to make you hate Faust's guts.

If you find yourself thinking like Faust while playing the game, then it's too late for you. At least you might be able to save your daughter...
